## Perma-Fix Announces Financial Results and Provides Business Update for the First Quarter of 2013

Schedules Conference Call for 2:30 PM Eastern Time

ATLANTA - May 10, 2013 - Perma-Fix Environmental Services, Inc. (NASDAQ: PESI) today announced results for the first quarter ended March 31, 2013.

Dr. Louis F. Centofanti, Chairman and Chief Executive Officer, stated, "We continue to see weakness in both our operating segments as a result of delayed and redirected government spending; however, we are beginning to see signs of improvement including some initial small contracts we have been recently awarded. We remain optimistic the market will improve as the year progresses and that in 2013 we will achieve improved operating results and cash flow compared to last year. In February we reduced overhead and SG&A by over \$4.3 million on an annualized basis and expect these additional savings to be reflected in our results beginning in the second quarter. Meanwhile, we continue to build our sales pipeline, and believe we are well positioned as the market begins to improve."

"We are aggressively pursuing a number of significant opportunities treating more complex and higher activity waste streams, including solutions we developed to address tank waste at the Hanford, Washington site. We have treatment technologies and permitted facilities in place that could be utilized to rapidly and effectively address problematic waste streams such as these, which have become a very high priority for the DOE. In addition to our government business, we are also focused on expanding our commercial and international business."

### **Financial Results**

Revenue for the first quarter of 2013 was \$19.8 million versus \$37.9 million for the same period last year. Revenue for the Treatment Segment decreased to \$7.3 million from \$12.8 million for the same period in 2012. Revenue from the Services Segment was \$12.5 million versus \$25.1 million for the same period in 2012.

Gross profit for the first quarter of 2013 was \$537,000 versus \$4.4 million for the first quarter of 2012 primarily due to lower revenue and revenue mix. Gross margin decreased to 2.7% from 11.5% for the same period last year primarily due to lower revenue and the impact of fixed costs on our cost of goods sold.

Operating loss for the first quarter of 2013 was \$4.2 million versus operating loss of \$1.0 million for the first quarter of 2012. Net loss attributable to common stockholders for the first quarter of 2013 was \$2.9 million, or (\$0.05) per share, versus net loss of \$1.0 million or (\$0.02) per share, for the same period in 2012.

The Company recorded an Adjusted EBITDA loss of \$2.4 million from continuing operations during the quarter ended March 31, 2013, as compared to Adjusted EBITDA of \$1.3 million for the same period of 2012. The Company defines EBITDA as earnings before interest, taxes, depreciation and amortization. EBITDA and Adjusted EBITDA are not measures of performance calculated in accordance with Generally Accepted Accounting Principles in the United States ("GAAP"), and should not be considered in isolation of, or as a substitute for, earnings as an indicator of operating performance or cash flows from operating activities as a measure of liquidity. The Company believes the presentation of EBITDA is relevant and useful by enhancing the readers' ability to understand the Company's operating performance. The Company's management utilizes EBITDA as a means to measure performance. The Company's measurement of EBITDA may not be comparable to similarly titled measures reported by other companies. Due to the unique accounting for the recognition of fair market value of percentage of completion contracts resulting from the acquisition of SEC, the Company recognizes that EBITDA is an "Adjusted EBITDA" and understands these differences when measuring performance. The table below reconciles EBITDA and Adjusted EBITDA, both non-GAAP measures, to loss from continuing operations for the three months ended March 31, 2013 and 2012.

This press release contains "forward-looking statements" which are based largely on the Company's expectations and are subject to various business risks and uncertainties, certain of which are beyond the Company's control. Forward-looking statements generally are identifiable by use of the words such as "believe", "expects", "intends", "anticipate", "plans to", "estimates", "projects", and similar expressions. Forward-looking statements include, but are not limited to: the market will improve; in 2013 we will achieve improved operating results and cash flow; and expect these additional savings to be reflected in our results beginning in second quarter. These forward-looking statements are intended to qualify for the safe harbors from liability established by the Private Securities Litigation Reform Act of 1995. While the Company believes the expectations reflected in this news release are reasonable, it can give no assurance such expectations will prove to be correct. There are a variety of factors which could cause future outcomes to differ materially from those described in this release, including, without limitation, future economic conditions; industry conditions; competitive pressures; our ability to apply and market our new technologies; the government or such other party to a contract granted to us fails to abide by or comply with the contract or to deliver waste as anticipated under the contract; that Congress provides continuing funding for the DOD's and DOE's remediation projects; ability to obtain new foreign and domestic remediation contracts; and the additional factors referred to under "Special Note Regarding Forward-Looking Statements" of our 2012 Form 10-K. The Company makes no commitment to disclose any revisions to forward-looking statements, or any facts, events or circumstances after the date hereof that bear upon forward-looking statements.
