**Perma-Fix Reports Financial Results and Provides Business Update
for the Third Quarter of 2016**

ATLANTA – November 18, 2016 – Perma-Fix Environmental Services, Inc. (NASDAQ: PESI) today announced results for the third quarter and nine months ended September 30, 2016.

Dr. Louis F. Centofanti, Chief Executive Officer, stated, “We are disappointed with our results year-to-date, which reflect a large number of shipments that were delayed and unanticipated spending constraints at the federal level. We have, however, begun to see the waste that was delayed begin to ship and expect to see improvement in the fourth quarter. Adjusted EBITDA (as defined below) for the fourth quarter of 2016 is estimated to be \$1 million. In addition, we continue to look at all aspects of our business from a cost standpoint and are proceeding with the planned shutdown of our M&EC facility, which we believe should save an estimated \$2 to \$3 million annually.”

“Heading into the fourth quarter, we are near completion of our previously announced demonstration project with a significant customer related to the treatment of high level waste streams. If successful, this would represent our first foray into high level waste treatment. We believe we have the ability to complete this initial demonstration project and look forward to providing additional updates in the near future. At the same time, we are actively bidding on an increased number of projects within our Services Segment, and with the improved forecast for waste shipments, we expect to see the improved results continue into the new fiscal year.”

Dr. Centofanti concluded, "Our medical subsidiary has entered into a letter of intent (“LOI”) with a private investor, subject to execution of a definitive agreement, which we expect will provide it with financing to execute its strategy through commercialization of the Tc-99m technology. Pursuant to the LOI, the investor is to purchase \$10 million of Preferred Shares in Perma-Fix Medical Corporation (“PFMC”), a wholly owned subsidiary of Perma-Fix Medical, S.A., at a price of \$8.00 per share, which if consummated, would provide the investor with approximately 48.6% of the voting securities of PFMC and a warrant to purchase additional voting shares of PFMC. This cash infusion, combined with the new management team, will help the medical subsidiary accelerate its commercialization activities including submission of its regulatory filings."

Financial Results

Revenue for the third quarter of 2016 was \$12.9 million versus \$17.3 million for the same period last year. Revenue for the Treatment Segment was \$7.6 million compared to \$10.9 million for the same period in 2015. The decrease in revenue in the Treatment Segment was primarily due to lower waste volume. Revenue from the Services Segment was \$5.3 million versus \$6.4 million for the same period in 2015.

Gross profit for the third quarter of 2016 was \$1.8 million versus \$4.9 million for the third quarter of 2015. The decrease in gross profit was primarily within our Treatment Segment where gross profit decreased approximately \$2.9 million and gross margin decreased to 11.0% from 34.0% for the same period last year primarily due to decreased revenue resulting from lower waste volume and the impact of our fixed costs structure.

Operating loss for the third quarter of 2016 was \$1.4 million versus an operating income of \$1.5 million for the third quarter of 2015. Net loss attributable to common stockholders for the third quarter of 2016 was \$1.6 million or (\$0.13) per share, versus net income of \$1.1 million or \$0.09 per share for the same period in 2015.

The Company recorded Adjusted EBITDA of \$152,000 from continuing operations during the quarter ended September 30, 2016, as compared to Adjusted EBITDA of \$2.9 million for the same period of 2015. The Company defines EBITDA as earnings before interest, taxes, depreciation and amortization. Adjusted EBITDA is defined as EBITDA before research and development costs related to the Medical Isotope project, impairment charges on tangible and intangible assets and write-off of prepaid fees resulting from tangible asset impairment loss. Both EBITDA and Adjusted EBITDA are not measures of performance calculated in accordance with Generally Accepted Accounting Principles in the United States of America (“GAAP”), and should not be considered in isolation of, or as a substitute for, earnings as an indicator of operating performance or cash flows from operating activities as a measure of liquidity. The Company believes the presentation of EBITDA and Adjusted EBITDA is relevant and useful by enhancing the readers’ ability to understand the Company’s operating performance. The Company’s management utilizes EBITDA and Adjusted EBITDA as a means to measure performance. The Company’s measurements of EBITDA and Adjusted EBITDA may not be comparable to similar titled measures reported by other companies. The table below reconciles EBITDA and Adjusted EBITDA, both non-GAAP measures, to GAAP numbers for (loss) income from continuing operations for the three and nine months ended September 30, 2016 and 2015.

The Company failed to meet its quarterly fixed charge coverage ratio in the third quarter of 2016; however, the Company has obtained a waiver from our lender for this non-compliance. The Company's inability to meet its quarterly fixed charge coverage ratio in the third quarter of 2016 was due in large part, to the decrease in revenues sustained by our Treatment Segment as a result of delays in certain waste shipments that we expected to receive during the third quarter of 2016. The Company has further received a revision in the methodology to be used in calculating our fixed charge coverage ratio which we believe will enable us to meet our fixed charge coverage ratio requirement for the remainder of 2016.
